

DC Endodontic Center

202-835-3636

Instructions Following Root Canal Therapy

Don't chew on the treated side.

Expect tenderness to pressure/chewing
for about 3-6 days.

Avoid hard, crunchy foods.

Take medication as instructed.

Brush and floss as you would normally.

Minor discomfort is not unusual.

See your general dentist within
approximately one month.

If you experience fever, swelling or uncontrolled pain,
please call the office at 202-835-3636 for instructions.
